The 2nd SFM day

Monday 17th October 2016

Welcome to a day of Microbiology

Svenska Läkaresällskapetets hus, Stockholm, October 17 9.30-18.00

The Swedish Society for Microbiology (SFM) is an organization that supports research in microbiology. SFM welcomes microbiology researchers from all disciplines to the second SFM one-day meeting in order to promote scientific interactions. Abstracts for short presentations or posters will be selected mainly from junior researchers but all contributions are welcome.

Registration will open during summer

SFM members participate for free.

For more information about SFM and information about registration as SFM member:
